INDUCTION PROGRAM:

Day 1 (30 July 2025 , Electrical Engineering)

Paragraph:

I was eagerly waiting for today, it was my first day in college (GNDEC). The day started with welcome talk by our respected Principal Sir , he told about the role of Discipline, Passion and Enthusiasm in making a suitable future of ours and also when they tell us about that the college was stated in 1956 and it is there 70th ceremony i was very surprised to hear that. The guest speaker said that Engineering is fascinating and they tell us that engineering is not just machines and codes, but the art of solving real-world problems with creative thinking and the courage to take on thorny issues. I also met a few classmates, whom I did not know in the morning but at the end of the program I had already started to bond with them . I think they are doing their very best to give us the best like facility and Soft spoken staff and mentors. Today, it gave me great joy and pride to belong to this institution.I am very excited to begin my studies in this fantastic environment of the institution and I think that if they are giving it their all to for then we should also give our best to become a respectable student and citizens of this country.This will make our standard of living higher

2nd Day (01-08-2025)

Paragraph:

On the 2nd day of joining the program at GNDEC we had a wonderful session on "Universal Human Values" by Dr. Priya Darshini Madam. She talked about living with intention, identity and healthy relationships. Following that, we had an interactive session with Dr. Arvind Dhingra Sir on personality development and transitioning into confident and responsible individuals). He also made the session fun by including us in interactive games and activities that taught us the value of teamwork, communication, and self-awareness. Overall, it was an enjoyable and motivating day that helped us learn while having fun

REMARKS ABOUT THE INDUCTION PROGRAM:

The Welcome at GNDEC The Induction program at GNDEC was really a valuable one. This not only gave me a taste of college, but made me more aware of how to take advantage of what the campus has to offer. I learned the vision of college, achievements and the system of support present for students. The sessions made me more comfortable, motivated, and connected to faculty and classmates. In short, this induction program covered almost everything to provide me a good and positive start for my future in engineering.I am very happy to be a part of this program.This is the very best that students can hope for.

Conclusion:

The Induction Program at GNDEC provided a strong foundation for the journey ahead. It helped me understand the values, expectations, and support systems of the institution while also allowing me to connect with my peers and faculty members. Through interactive sessions, value-based learning, and personality-building activities, I gained both clarity and motivation. I now feel more confident, responsible, and inspired to give my best in academics and personal growth. I am proud to be a part of GNDEC and truly look forward to the experiences and learning that lie ahead.
